11:20-11:35	**Achieving NJDEP Lab Certification: Lessons from Raritan Headwaters** Rachel Garcia Raritan Headwaters Association
11:35-12:05	**Category One Waters: Monitoring and the Evaluation Process** Kelly Mascarenhas NJDEP, Bureau of Environmental Analysis, Restoration, and Standards
12:05-12:30	**Group Roundtable Questions** • What is something you saw this year on the water or elsewhere that surprised you? • What's one way your monitoring data was used this past year, either by your group, a municipality, the state, or someone else? • Where are the biggest gaps right now - in places, parameters, seasons, or volunteer capacity? Which of those could we close by working together rather than separately?
	Thank you for coming!
